

	Monday	Tuesday	Wednesday	Thursday	Friday											
09h00-09h30																
09h30-10h00	PS :: Module 1 Prof. Sílvio Gama				ALC :: Module 2 Prof. Zhang Yulin											
10h00-10h30																
10h30-11h00																
11h00-11h30																
11h30-12h00																
12h00-12h30					AO :: Module 1 Prof. Vasile Staicu											
12h30-13h00																
13h00-13h30					ALC :: Module 3 Prof. Elisa Fernandes											
13h30-14h00																
14h00-14h30		Seminar	AO :: Module 2 Prof. Gueorgui Smirnov	AO :: Module 3 Prof. Fernando Lobo Pereira	GD :: Module 1 Prof. Joana Torres	GD :: Module 2 Prof. Alexandre Rodrigues	PS :: Module 3 Prof. Emilia Athayde	AO :: Module 1 Prof. Vasile Staicu	ALC :: Module 3 Prof. Elisa Fernandes							
14h30-15h00	ALC :: Module 1 Prof. Manuel Delgado									PS :: Module 2 Prof. Isabel Pereira						
15h00-15h30																
15h30-16h00																
16h00-16h30																
16h30-17h00																
17h00-17h30																
17h30-18h00																
18h00-18h30																

Advanced Topics in	Module 1	Module 2	Module 3
Algebra, Logic and Computation (ALC)	October 7, 14, 21, 28, November 4	November 15, 22, 29, December 6, 13	December 20, January 10, 17, 24
Analysis and Optimization (AO)	October 4, 11, 18, 25	October 30, November 6, 13, 20, 27	December 4, 11, 18, January 8, 15
Dynamics and Geometry (DG)	October 10, 17, 24, 31, November 7, 14, 21	November 28, December 5, 12, 19, January 9, 16, 23	
Probability and Statistics (PS)	October 7, 14, 21, 28, November 4	November 11, 18, 25, December 2, 9	December 19-20, January 9-10, 16-17, 23-24
Seminar	Usually, the seminars will be on Tuesdays afternoon. The seminars will be announced on the webpage of the program.		

Remark: 1st November is a national holiday
